MR RICHARD OGBUJI
(MD/CEO) CHREIMATECH

Chrema Technologies started as a specialist service organization providing electronic surveillance and access control solutions to its clientele. Today we have evolved into a leading integrator with richer and broader solutions product offering ensuring that our customers get all their relevant solutions under one roof.

Our comprehensive portfolio offers security, safety and automaton solutions required for any facility irrespective of size or sector. Our alliances are strategically selected and solutions tailored to our customers requirement and the environment that we operate.

Our experienced team will work with you to determine the best solutions that deliver maximum protection, versatility, simple operation and cost efficiency. With over 20 years cumulative industry experience you can rely on us to provide support and ensure that you derive optimum value from your installed systems throughout its lifecycle.

I personally want to thank you for taking time out of your busy schedule to look through our profile. We can assure that it's time well spent. See you soon as we look forward to serving you.

Best regards,
Richard Ogbuji
CEO, Chrema Technologies Limited

ABOUT US

Chrema Technologies Limited is a systems integration company that provides innovative Automation and Extra Low Voltage Systems solutions. We source and implement and integrate leading-edge technologies ensuring that our customers derive the utmost benefits and value from their investments with minimum downtime and frustrations.

Established in 2010, we are a reputable dynamic company and consist of professionals with several years of active and practical experience.

With honed skills in security, safety, communication, automation solutions and after-sales service, Chrema Technologies has the necessary expertise to engineer innovative, effective and reliable solutions.

Our focus on continuous improvement of our Design and Installation standards and our Investment in our people is pivotal to ensuring that our solutions are delivered with quality and meet the customer's requirement.

Chrema Technologies has its Head Quarters in Lagos and two branch offices that are strategically located in Abuja and Port Harcourt to cater for the Northern and the Eastern Region Projects respectively.

Using the processes, tools and documents endorsed by the PMI , Chrema Technologies ensure that projects are completed within the constraints of budget, scope and time. We allocate all projects undertaken to a specific project manager who is responsible for the project from concept to handover.

Our Vision

Innovating Africa Through Technology

Our Core Values

PIET2: Passion, Integrity, Excellence,
Technology, Team Spirit.

Our Mission

To continually design and deliver to our customers excellent engineering solutions with unparallel customer services and value for money.

01

OUR SERVICES

SECURITY SYSTEMS SOLUTIONS

Security is today seen as a necessity to combat the growing number of sophisticated threats to which organizations are exposed to.

We provide the most appropriate Electronic security solutions according to our customers' requirements. Our Engineers on request will carry out a comprehensive evaluation of your premises and offer you an integrated solution that will help to increase the efficiency of your business.

Our Security Systems Portfolio includes:

Security Surveillance System

CCTV (Closed Circuit Television) has become accepted in our day to day lives as a very useful tool in the protection of people and assets. With security awareness at an all time high, business and security managers are now, more than ever, turning to CCTV to protect their valuable staff and assets. CCTV is now within financial reach of both small and large business; systems can be designed to suit all applications, from the small retailer to high level security compounds.

More and more organizations recognize the value of CCTV as an everyday aid to:

- Deter Crime against people or assets
- Provide visual evidence in the event of a crime being committed
- Increase Staff Productivity
- Increase business efficiency
- Assist in review of occupational health & safety issues.

SECURITY SYSTEMS SOLUTIONS

SECURITY SYSTEMS SOLUTIONS

CHREMA TECHNOLOGIES LTD is an established leader in the design and implementation of surveillance systems from simple systems to complex digital video management systems, many of which utilize thousands of cameras distributed across exceptionally wide area networks. We have delivered turnkey systems, including camera devices, DVRs, NVRs, storage and related infrastructure to provide a seamless video surveillance platform for our clients' security and operational use.

Electronic Access Control Systems

CHREMA TECHNOLOGIES LTD offers integrated Access Control Systems to increase operational efficiencies and security across an organization. Access Control means ensuring that employees and visitors can gain access to the areas needed at the right times with minimal barriers. Our solutions includes a range of Card, biometric, and cloud-based access control technologies that allow Organizations mitigate against theft and unforeseen emergency situations while still maintaining an appealing persona to its guests.

Our team of security experts have years of experience designing effective Electronic Access Control systems for businesses in a broad range of industries. With state-of-the-art technologies from leading manufacturers, installed by our highly skilled technicians, your system will be both highly effective and easily managed to ensure the proper flow of people throughout your building and the security of your business, employees, and property.

SECURITY SYSTEMS SOLUTIONS

SECURITY SYSTEMS SOLUTIONS

Physical Security Systems

At Chrema Technologies we are able to design, and install Turnstiles, car park barriers, rising bollards and road blockers. All equipment are carefully selected to ensure they operate correctly under all but the most severe weather conditions possible at the location and provide a quick and safe opening speed.

Intrusion Detection System

Guarding your property from intrusions is critical and each business or customer has different needs and requirements. This is why we adopt a customized approach with each specific facility's needs in mind

When further integrated with Video Surveillance or Access Control system an Intrusion system becomes a powerful system with the capacity to raise an alarm, alert a control room center or even directly contact police or security forces.

SECURITY SYSTEMS SOLUTIONS

INFORMATION AND COMMUNICATION SOLUTIONS

Communication is critical for all business activities regardless of the size of the organization. . We assist in the review and selection of the right blend of data networks, voice and unified communications solutions and services required to satisfy modern business demands We facilitate this seamless communication from design to implementation, providing an end-to-end IP solutions built around Data and Voice networks.

.Our engagement includes implementing the following solutions.

- Structured Cabling
- Voice & Data Networks
- Mobility
- Voice Recording System
- IP Network Management
- IP Network Security
- Unified Communication
- Data Centers, Servers & Storage
- Uninterruptible Power Supplies (UPS)

INFORMATION AND COMMUNICATION SOLUTIONS

FIRE & LIFE SAFETY SOLUTIONS

Warn, alert, monitor & protect.

Chrema Technologies understands how critical these life safety systems in buildings are as they protect and evacuate the building population in emergencies. From initial design and installation right through to regular maintenance and inspection, our comprehensive fire protection and suppression systems capabilities allow our customers to be rest assured that lives are properly protected and that buildings meet all fire-related codes and regulations.

- Protect your personnel and your business assets with:
- Fire-detection and Alarm systems
- Aspirating Smoke Detection System
- Fire Suppression System
- Fire Hydrant System
- Fire Hose Reel System
- Voice Evacuation System
- Emergency Lighting System

We work hand-in-hand with owners, architects, general contractors, and other trades to ensure that your Life safety systems are integrated within your facility in a manner that does not interfere with the aesthetics of construction, and other building components. Contact us for a no-obligation assessment of your facility.

FIRE & LIFE SAFETY SOLUTIONS

AUTOMATION SOLUTIONS

BUILDING MANAGEMENT SYSTEM (BMS)

More than ever energy efficiency and uncompromising security are crucial to the overall business performance to any building.

We provide solutions based on open technologies that give you the opportunity to control the temperature, lighting, ventilation etc within an entire facility and make them function as one integrated structure. The possibilities are endless –create your perfect office environment - dim or increase light levels according to ambient light conditions, close blinds, bring up and power down the projector and other devices when not in use.

Chrema Technologies offers a scalable, upgradable platform that can grow as your needs increase too. We deliver seamless management of every aspect of your office environment using intuitive devices, enabling easy management of your environment whether you are present or abroad.

Smart Business

Chrema Technologies Ltd provides automation solutions for your commercial facilities. It's about making your business more efficient, creating solutions that set it apart and putting you a step above all the rest. It's how we mind your business.

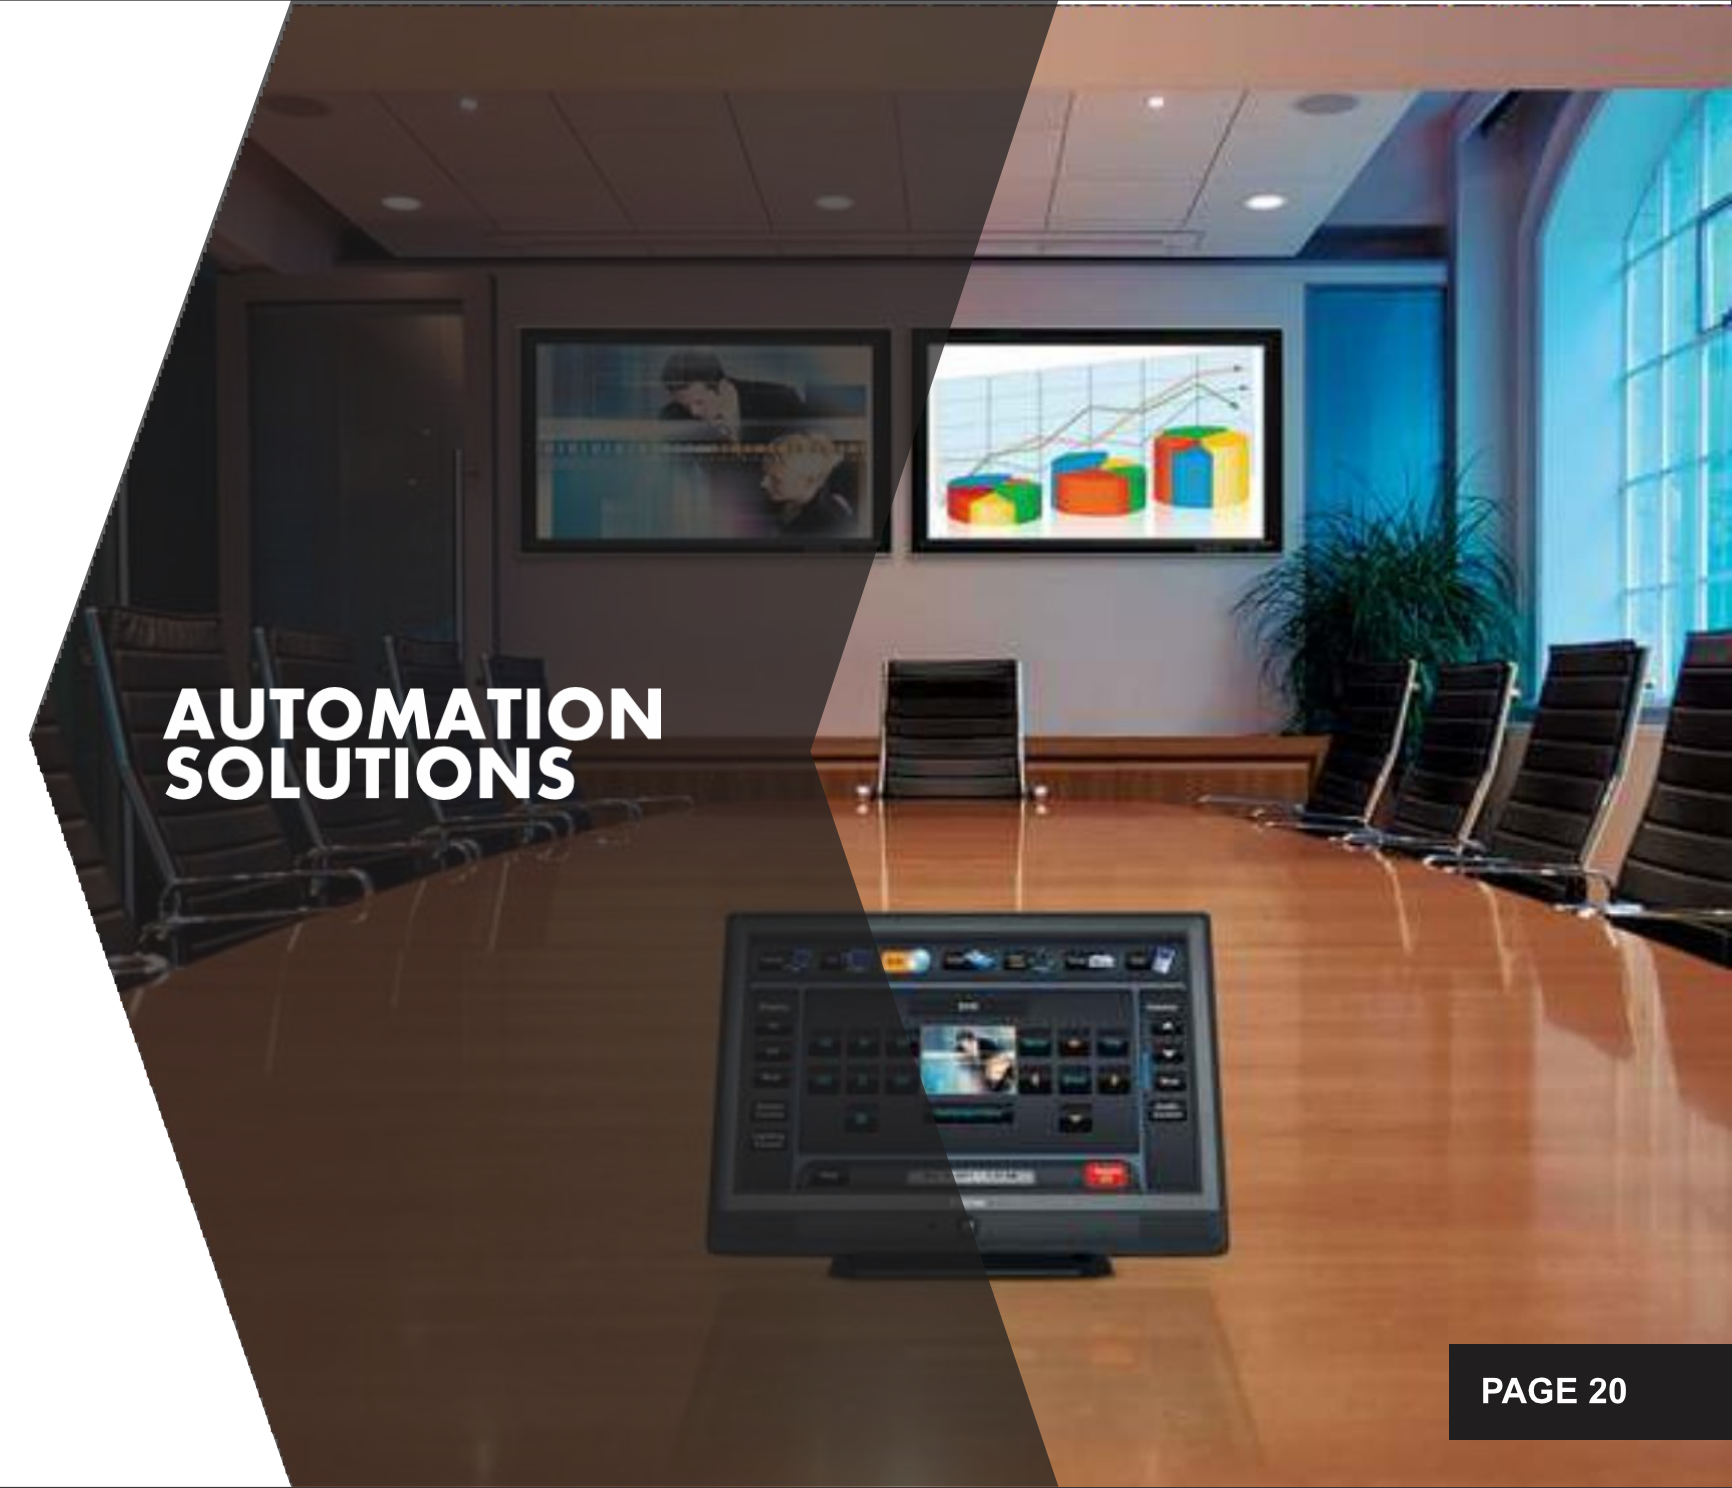

AUTOMATION SOLUTIONS

AUTOMATION SOLUTIONS

As a business owner or facility manager you have enough to worry about without letting the technology of business operations distract you. Our solution gives you a competitive advantage by improving operating efficiencies. Set your lighting, music, temperature and video to greet your customers with the perfect welcome. With one button your security system arms, lights go on, temperature adjusts and all the music and TVs automatically turn on. Keep an eye on things—from anywhere. Whether equipment or lights are left on, or unusual activity is detected, you'll always be in the know.

Boardroom Automation

Technology enhances every meeting and presentation; we go a step further by ensuring that all your installed systems can work properly together. Use one-touch control to dim the lights for a presentation, lower the screen and power on your video conferencing system. Incorporate video conference call capabilities to include off-site employees and manage it from one easy-to-use interface.

AUTOMATION SOLUTIONS

AUTOMATION SOLUTIONS

SMART HOME

While there are many smart products available today, it isn't until these devices work together in orchestration, that you experience the magic of a smart home. Coordinate the technology in your home into complete, brilliant experiences- interactions that fit your lifestyle and are easy for your family to enjoy. With one touch, dim the lights, stream high-resolution music, tune to your favorite TV channel, lock the doors and arm the security system. Or, check in on your home no matter where you are. Update and adapt your home to your changing needs today and in the future. It's a smarter living experience that you'll wonder how you ever lived without. We call it, the New Normal.

Smart Lighting

Experience Brilliant Possibilities

Smart lighting adds elegance, ambiance, convenience and energy efficiency to your home. Make your house appear occupied while you are away. Raise or dim any light in the room or the entire house with a single touch or using just your voice. Or have your lighting respond automatically to how you live. It's not just smart, it's brilliant.

Entertainment

Multi-room Audio/Video Experience

Chrema Technologies brings the power, performance and reliability to deliver the best entertainment over one, robust platform.

Fill one room or every room with your favourite high-definition content. From watching the latest 4K movies to streaming high-resolution music, you can enjoy limitless entertainment with a single remote or create an unrivalled home theatre experience. It's simple, clean and clutter-free entertainment—right at your fingertips.

Design a jaw-dropping home cinema that rivals any cineplex. Press the “Movie” button, and the projector screen descends the DVD player fires up, the surround sound is activated and the lights dim.

Incorporate immersive, high-resolution audio, high-definition video, a smart TV or projection screen, and customized lighting to create the ultimate experience. All equipment can be tucked away in a closet and controlled easily from one remote or touch screen.

Share your entire movie library, streaming video and satellite channels in every room—no need for set-top boxes and multiple video sources. Consolidate all of your audio and video equipment into a closet, creating

AUTOMATION SOLUTIONS

MAINTENANCE AND AFTER SALES SERVICE

The reliability and efficiency of any installed system ultimately depends upon the maintenance programs you choose. Preventive maintenance helps you find equipment problems before they cause failure, leaving you with fewer repairs and less unscheduled downtime.

Chrematech offers professional assistance ensuring that all customers obtain optimum benefit of their investment in terms of equipment and service solutions. All service agreements are bespoke and are compiled in close cooperation with the customer particular requirement.

We continuously invest in training, tools and support programmes to make sure that our technicians are kept up-to-date with the latest technical knowledge required to service equipment and reduce possible downtime.
